Microsoft Word Export Simulation - Page 1

This PDF contains an embedded ICC profile dictionary (/DefaultRGB -> /ICCBased stream) and standard XML/XMP document metadata commonly exported by desktop word processors. Notice how standard stream-only optimizers fail to strip or downscale colour profile streams unless specifically instructed.

Microsoft Word Export Simulation - Page 2

This PDF contains an embedded ICC profile dictionary (/DefaultRGB -> /ICCBased stream) and standard XML/XMP document metadata commonly exported by desktop word processors. Notice how standard stream-only optimizers fail to strip or downscale colour profile streams unless specifically instructed.

Microsoft Word Export Simulation - Page 3

This PDF contains an embedded ICC profile dictionary (/DefaultRGB -> /ICCBased stream) and standard XML/XMP document metadata commonly exported by desktop word processors. Notice how standard stream-only optimizers fail to strip or downscale colour profile streams unless specifically instructed.

Microsoft Word Export Simulation - Page 4

This PDF contains an embedded ICC profile dictionary (/DefaultRGB -> /ICCBased stream) and standard XML/XMP document metadata commonly exported by desktop word processors. Notice how standard stream-only optimizers fail to strip or downscale colour profile streams unless specifically instructed.
