STRATEGIC PILLAR 1: CLOUD INFRASTRUCTURE ACCELERATION

Quarterly Roadmap and Architecture Milestones (Slide 1 of 5)

- Transitioned 100% of PDF processing workloads to distributed asynchronous workers.
- Implemented zero-copy streaming pipeline reducing memory allocations by 45%.
- Expanded regional edge points of presence across North America and Europe.
- Certified ISO-27001 and SOC-2 Type II audit compliance with automated reporting.

STRATEGIC PILLAR 2: CLOUD INFRASTRUCTURE ACCELERATION

Quarterly Roadmap and Architecture Milestones (Slide 2 of 5)

- Transitioned 100% of PDF processing workloads to distributed asynchronous workers.
- Implemented zero-copy streaming pipeline reducing memory allocations by 45%.
- Expanded regional edge points of presence across North America and Europe.
- Certified ISO-27001 and SOC-2 Type II audit compliance with automated reporting.

STRATEGIC PILLAR 3: CLOUD INFRASTRUCTURE ACCELERATION

Quarterly Roadmap and Architecture Milestones (Slide 3 of 5)

- Transitioned 100% of PDF processing workloads to distributed asynchronous workers.
- Implemented zero-copy streaming pipeline reducing memory allocations by 45%.
- Expanded regional edge points of presence across North America and Europe.
- Certified ISO-27001 and SOC-2 Type II audit compliance with automated reporting.

STRATEGIC PILLAR 4: CLOUD INFRASTRUCTURE ACCELERATION

Quarterly Roadmap and Architecture Milestones (Slide 4 of 5)

- Transitioned 100% of PDF processing workloads to distributed asynchronous workers.
- Implemented zero-copy streaming pipeline reducing memory allocations by 45%.
- Expanded regional edge points of presence across North America and Europe.
- Certified ISO-27001 and SOC-2 Type II audit compliance with automated reporting.

STRATEGIC PILLAR 5: CLOUD INFRASTRUCTURE ACCELERATION

Quarterly Roadmap and Architecture Milestones (Slide 5 of 5)

- Transitioned 100% of PDF processing workloads to distributed asynchronous workers.
- Implemented zero-copy streaming pipeline reducing memory allocations by 45%.
- Expanded regional edge points of presence across North America and Europe.
- Certified ISO-27001 and SOC-2 Type II audit compliance with automated reporting.
